**SUMMER 2019 DISABILITY RIGHTS
LEGAL INTERNSHIP OPPORTUNITY**

Disability Rights Maryland (DRM), a 40 year-old nonprofit civil rights law firm, is Maryland's designated Protection and Advocacy organization, charged with advancing the rights of people with all types of disabilities. DRM utilizes an array of strategies, including individual and class representation, outreach and education, information and referral, technical assistance and self-advocacy support, policy and coalition work, and abuse and neglect investigations, to ensure that people with disabilities are fully included in schools, the workplace, neighborhoods and all aspects of community life.

DRM is offering a Summer 2019 legal internship to focus on advancing the rights of people with disabilities in Maryland communities. The intern will work closely with DRM's attorneys to provide comprehensive advocacy, which may include investigating complaints of rights violations; assisting with intake and client communication; conducting legal research and writing; assisting with individual casework; and supporting systemic advocacy around how proposed government policies will affect people with disabilities.

This internship presents a unique experience for the right individual, with significant client contact, legal research and writing opportunities, close working relationships with DRM attorneys and meaningful opportunities to work with national, state, and local stakeholders on issues impacting people with all types of disabilities. A stipend may be available for this internship. DRM is also willing to work with students who would like to apply for externship credit or grant funding, such as the Maryland Public Interest Project (MPILP) or the University of Baltimore Students for Public Interest Law (UBSPI), for this internship.

OPPORTUNITIES

- **Research and legal writing:** Interns will have the opportunity to research and write memoranda on various issues as relevant to program priorities, such as: the civil rights of students with disabilities to make meaningful educational progress and remain in school; the rights of people with disabilities to accessible housing, community services, and health care; the rights of people with intellectual and/or developmental disabilities to make decisions and receive supports as needed to achieve their goals in the community; and criminal justice reform and crisis response issues for people with behavioral health disabilities.
- **Conducting investigations and supporting case representation:** The intern will assist DRM attorneys in handling issues related to issues such as:
 - Prison and criminal justice issues;
 - Allegations of abuse, neglect, and other rights violations of people with disabilities in institutions and community based services;

- Access to affordable housing and reasonable accommodations for people with disabilities;
- Access to free appropriate public education and non-exclusionary and non-discriminatory discipline practices; and
- Reducing barriers to employment for people with disabilities.
- **Community Outreach:** The intern will work with DRM staff attorneys to support collaboration with partners and other stakeholders.
- **Client Intakes:** The intern will conduct client intake and follow-up under the supervision of DRM attorneys.
- **Administrative Support:** The intern will perform some administrative work, such as data collection and updating electronic and hardcopy case files.
